### **How did you get into porn in the first place?**

I started modeling from young age, I did photo shoots in Miami, Hollywood and I had a model agency in New York where I worked. When I was back in Belgium I wanted to try something new and then one night I saw a liveEurocreme show with Johan Volny and Alex Stevens...from that moment I knew I wanted to be in porn movies. I contacted Eurocreme producer Simon Booth and after a few days I was in London filming for them and doing photoshoots. I liked it and from first movie I knew I want to do this for years.

### **My personal favorite scene of yours is the one with Shane Stone inPORN BOY. We assume that you enjoy every scene you're in, but if you could pick a favorite what would it be?**

I like all scenes I did for Eurocreme studios, because the studio is good and professional, always look for nice models, and always very good producers. I never need to worry if I work for Eurocreme. I don't have a favorite scene, I like my first scenes with Eurocreme, they are special for me because I think the first porn movie is always special. I like also Party Boy because it was the biggest scene I had had up to that point. Also Porn Academy was nice. And Porn Boy was also nice, because before that I hadn't worked for Eurocreme for around 5 months, so Porn Boy was like a comeback.

### **What are your plans for your future as a porn actor? Do you plan to stay in the industry for a while?**

My plans are making new movies with Eurocreme, also doing photoshoots. I would like to work with the best photographers in the world, like Bruce Weber and David LaChapelle, ... Also in the future I want to film in the States again. I'm also working on my website. And I want to stay in porn for long time because this is what I want to do.

---

### **Yes, yes...I love LaChapelle. You should also check out Joe**

**Oppedisano! Anyway, when you're not porning it up, what are your hobbies?**

I like the gym a lot, I go almost everyday for a little while. I like the sauna, swimming, going for drinks, I like movies, music, ... traveling and meeting people all over the world. Also, yes, porn is my work. But also my hobby

**Do your family and/or friends know about what you do? How do they feel about it?**

They all know what I do, my gay friends loves it, my str8 friends are cool with it and my family agreed in what I do.

---

**You mentioned you've had a boyfriend for a while now even though you never thought you'd find true love...I'm sure any guy would be lucky to have you, so what's the sweetest thing your boyfriend has ever done for you?**

I don't remember, I've been dating him for eight months and almost every day he does something sweet for me. He surprises me a lot.
